

Raising the Roof Capital Campaign
Holy Cross Church – Redmond, WA

For more than 30 years, Holy Cross has provided a wonderful, grace-filled place for Christian worship, fellowship, spiritual growth, outreach, and service to others. Over the years, we have expanded and enhanced our facilities to serve our community and to carry out our mission as God's people.

For the past 3 years, Holy Cross Church has been involved in an exploration and planning process to determine the future ministry of our church and the facilities needed in order to carry out this ministry. Through Facilities and Needs Assessments and a Feasibility Study, we have gathered information, and the ideas and desires of our membership. This process has led us to where we are today.

A majority of our congregation believe that the main mission of Holy Cross is to "grow the church." Further, most in our church family see Holy Cross becoming a gathering place for the surrounding neighborhood, and affirm that we need more space in our sanctuary, additional room for church activities, new kitchen and restroom facilities, and a church entrance that is more visible and welcoming.

Additionally, we are blessed to be serving in a community that is growing rapidly. Projects adding 850 homes to the 116th Street neighborhood are underway according to the Redmond Planning Department.

In order to address these needs and continue our mission as a church, our ***Raising the Roof*** campaign, seeks to raise funds to accomplish a series of building projects in service to the following areas of ministry:

Worship

- Remodel our existing sanctuary to accommodate up to 300 people in worship

Fellowship

- Build a corridor along the north side of both buildings adding 4,230 sq. ft. of new space which will serve as an expanded area for gathering and parish events
- Enlarge and enhance our kitchen

Welcome and Hospitality

- Present a more attractive and welcoming entrance visible from the street
- Create a true narthex in which to gather and welcome people

Christian Formation

- Additional classroom and meeting spaces for youth and adult activities

Service and Outreach

- Unifying our current buildings under one roof
- New restroom facilities
- Expanding our parking
